- **State Management:** Redux, Context API
- **Testing:** Jest, Cypress, React Testing Library, Postman/Newman, Swagger/OpenAPI
- **Development & Tools:** Git, GitHub Actions, Docker, Docker Compose, CI/CD, Frontend Optimization, SSR, ISR
- **Soft Skills:** Communication, Attention to Detail, Leadership, Problem Solving, Collaboration

Professional Experience

Software Development Engineer Intern

2024

PCPS College

Lalitpur, Nepal

- Developed and maintained responsive user interfaces for a library management system using React.js, TypeScript, and Next.js, delivering 10+ frontend features for approximately 2000 end users.
- Built and refined reusable React components and frontend features, focusing on clean structure, responsive layouts, and maintainable application code.
- Debugged and resolved 20–30 application defects, troubleshooting UI issues and integration problems across frontend and backend components.
- Worked with UI/UX team to implement application features.

IT & Social Media Assistant

2023–2025

GNN Media Network Pvt. Ltd.

Lalitpur, Nepal

- Supported the Digital and Social Media Department with day-to-day technical and operational tasks, helping maintain reliable digital workflows and timely content delivery.
- Managed and published digital content across company platforms, maintaining publishing schedules and coordinating content delivery against deadlines.
- Collected, organized, and maintained website and audience performance data to support reporting, analysis, and digital planning.
- Monitored digital platforms and industry activity to identify relevant technical and content trends that could improve the company's online presence.
- Handled multiple priorities and urgent technical requests while supporting the department in resolving day-to-day digital platform and workflow issues.

Projects

Portfolio Website

Next.js, React, TypeScript, Tailwind CSS, Framer Motion, Resend

- Built a responsive portfolio website using Next.js, React, and TypeScript with reusable components and responsive layouts using Tailwind CSS.
- Applied frontend optimization and Next.js rendering capabilities to improve application performance and user experience.
- Integrated Resend for email functionality and Framer Motion for interactive frontend animations.

Next.js E-Commerce Platform

Next.js, React, TypeScript, shadcn/ui, Redux, Cypress

- Developed a responsive e-commerce interface using Next.js, React, TypeScript, and shadcn/ui with reusable components, cart functionality, infinite scrolling, and skeleton loading states.
- Managed application and cart state using Redux, structuring shared state for predictable and maintainable frontend behavior.
- Tested frontend behavior under varying network and data conditions using Cypress, including loading, empty, and error states.

Education

BSc (Hons) Software Engineering

2023–2026

Patan College for Professional Studies, affiliated with the University of Bedfordshire

Nepal

Languages

English (Professional) — Nepali (Native)
